Forecast for Thursday 19 Aug 2021

Weather: Generally a cloudy start with some outbreaks of light rain and drizzle, and hill fog. These are most likely to occur in the west of the park and some eastern parts are likely to see some brighter spells. A brighter afternoon, as warm sunny spells develop but also a few showers. These clearing in the early evening.

Chance of cloud free mountain/hill tops above 600m: 20-30% in the morning then 60-70% across the region after lunch.

Visibility: Poor at first with extensive cloud with bases around 400-600m and occasional drizzle across western parts. Improving as cloud breaks up and lifts to around 800m through the afternoon but suddenly deteriorating in any showers.
